Blend - Towels

PT30 Compatible

275470

PRODUCT DESCRIPTION

BlackSatino Blend towels are suitable for a comfortable and hygienic form of hand drying. The towels can be used individually due to their V-fold, which contributes to lower consumption.

Blend towels are made from alternative raw materials such as used coffee cups, used towel paper and bottle labels. In this way, we turn waste into raw materials and users improve their ecological footprint. The Blend towels are also available as part of a circular concept.
