

BLACKSATINO FRAGRANCES SPARQ & QLASH

SUSTAINABLE SCENT EXPERIENCE FOR WASHROOMS

Today, everything is about sustainability and experience. This also goes for washrooms. After all, the experience in the washroom is one part of the overall picture visitors or employees get of an organisation. A fresh, clean and hygienic washroom contributes to a positive image. And the scent is an important part of the overall perception of this room.

BlackSatino has developed a special line of fragrances which makes a major contribution

to this. SparQ and Qlash are surprising fragrances for soaps, toilet seat cleaners and air refreshers.

Fillings as well as corresponding dispensers are Cradle to Cradle Certified. This means that they are 100% safe for people and the environment and do not contain any harmful chemicals.

Create an even better scent experience by alternating between SparQ and Qlash. This stimulates visitors' noses, which has a positive effect on the overall experience.

A FRAGRANCE HAS THREE NOTES:

1. Top notes:

fragrances that dominate in the first few minutes after application. The top notes of a fragrance are intended to draw attention and give the initial and striking impression of a fragrance.

2. Heart notes:

fragrances that bloom after the top notes have largely disappeared. Almost all of the floral fragrances are heart notes, which are probably the most important part of the perfume.

3. Base notes:

fragrances that last the longest, once the heart notes have largely faded away. Base notes can continue to give off fragrance for many hours.

▷ SPARQ

SparQ has top notes of lemon and lavender, heart notes of cloves and tonka bean, and base notes of musk, cedar and sandalwood. It is an aromatic composition with sensual cool and warm tones of citrus and lavender, spices with oriental hints mixed with woody notes, which gives the fragrance a piquante and exotic character.

▷ QLASH

Qlash has a top note of citrus, creating a fresh fragrance, reinforced by the floral character of the heart notes, which include jasmine. The sweet, powdery tones are combined with the oriental fragrances from the base notes of the Qlash, made up of musk, cedar and patchouli. It is this combination that makes Qlash an exotic, warm and sensual fragrance.

SOAPS
