

## BLACKSATINO GREENGROW

▶▶▶ Innovation through alternative raw materials

### SUSTAINABLE MISCANTHUS

- ▶ Renewable resource
- ▶ Minimal requirements
- ▶ Positive effects on biodiversity
- ▶ Local cultivation
- ▶ Free from harmful substances
- ▶ Highest fibre yield

The innovative premium product line made from alternative raw materials and Miscanthus, one of the most sustainable fresh fibres

By using Miscanthus, we are opting for a local cellulose fibre; the plant is a future-proof and sustainable alternative for the production of toilet paper and hand towel paper. In addition, paper waste streams also remain an important raw material. With BlackSatino GreenGrow, we are now introducing an innovative combination of sustainable, responsible raw materials bundled into a premium product line.

BlackSatino GreenGrow is produced without harmful chemicals, is safe for humans and the environment, is Cradle to Cradle Certified® Silver and CO<sub>2</sub> neutralised by using 100% green electricity and unavoidable production related emissions are compensated with Gold Standard projects.

# BLACKSATINO GREENGROW PRODUCT RANGE

Art.no.	Rolls	Layer	Length/roll (m)	Sheetsize (cm)	Ø-roll (cm)	Folding	Embossing	Packaging unit	Pieces/ pallet
<b>GREENGROW TOILET PAPER</b>									
314680	System	2	100	9,8 x 14	13,8	--	Waffle	24x1	42
314670	System	3	70	9,8 x 13,8	13,7	--	Waffle	24x1	42
065630	Compact	2	320	9,6 x 12,1	10,5	--	Waffle	12x4	40
076710	Compact	3	200	9,6 x 11	10,5	--	Waffle	6x8	40
314700	Jumbo	2	180	8,9 x 37	18,5	--	Plain	12x1	48
